Mathematics

220 *Calculus* Credit: 5 hours.

First course in calculus and analytic geometry; basic techniques of differentiation and integration with applications including curve sketching; antidifferentiation, the Riemann integral, fundamental theorem, exponential and circular functions. Credit is not given for both MATH 220 and either MATH 221 or MATH 234. Prerequisite: MATH 016 or equivalent; or an adequate ACT score.

This course satisfies the General Education Criteria for a Quant Reasoning I course.

Mathematics placement exams have been eliminated. Math ACT scores are used in their place. Students must register for one discussion and one lecture section beginning with the same letter. Engineering students must obtain a dean's approval to drop this course after the second week of instruction.
