

# Course Schedule - Fall 2006

## Natural Resources and Environmental Sciences

102 **Introduction to NRES** Credit: 3 hours.

Introduction to natural resources (forests, fisheries, soils, aquatic systems) and environmental science. Emphasizes renewable natural resources, ecological concepts, energy use, biodiversity of species, biogeochemical cycles, and air, water, and soil pollution. Provides natural science basis for understanding contemporary environmental issues and natural resource management.
