

Course Schedule - Fall 2007

Urban and Regional Planning

418 **GIS for Planners** credit: 4 hours.

Detailed introduction to the design and use of computerized geographic information systems, focusing on their significance for planning. Emphasizes GIS within an institutional setting, covering not only fundamental technical concepts, but also organizational, management, and legal issues. Students will be introduced to GIS applications and products through readings, videos, demonstrations, and exercises. Computer laboratory work is included.

Prerequisite: Upper division undergraduate or graduate standing.

Students must register for one lab and one lecture section.
